Creating Bridges to Knowledge

Goizueta Faculty Onboarding

Goizueta Business Library Virtual Tour

Key Contacts

Goizueta Business Librarians - GBSaskalibrarian@emory.edu

Course Reserves & Study.net - GBSreserves@emory.edu

Document Delivery - GBSdocdel@emory.edu

Goizueta Library Faculty Services

- Course Reserves & Study.net
- Document Delivery

Business Librarians

The team of business librarians can help support you in a number of ways:

- In-class session
- Customized course guides
- Research support
- RA/TA training

Accounting - Susan Klopper

Finance - Susan Klopper

ISOM - Nora McKenzie

Marketing - Susan Klopper

O&M - Saira Raza

Real Estate - Malisa Anderson-Strait

Download These Apps

You have free access to a number of newspapers (e.g., Wall Street Journal), business publications (e.g., The Atlantic) and more. Use this handout to register and access each resource.

Goizueta Faculty Toolkit

Key information to help you navigate services and support at the Goizueta Business Library and Emory Libraries.

Find Academic Journals

Locate the academic ejournals that Emory licenses.

Emory Libraries' Catalog

InterLibrary Loan

Email gbsdocdel@emory.edu if you would like GBL to handle your document delivery requests.

Other Useful Library and Campus Resources

Center for Faculty Development and Excellence (CFDE)
Supports faculty in many aspects of their career, including research and scholarship, writing, publishing, pedagogy, and professional development. CFDE offers one-on-one consultations as well as seminars, workshops, presentations, funding opportunities, and online resources. *Located on Level 2 of the Woodruff Library Building.*

Emory Center for Digital Scholarship (ECDS)
ECDS Data Services supports quantitative and geospatial datasets for both faculty and graduate students. *Located on Level 3 of the Woodruff Library Building.*

Use of Scripts is Strictly Forbidden

Current Emory Libraries' database licensing agreements strictly forbid using any type of scripts to generate searches and mine content; examples of these databases would be Nexis (LexisNexis) and Factiva. Vendors will not hesitate to turn off all access to their databases without prior notification. See the section below for exceptions: Emory Licensed Sources of Data and Text Analysis.

This is not a question of the intent or purpose for the research; running searches for academic research is not the issue. The noncompliance issue is the method by which you are searching the database's content, e.g. using a script.

Harvesting Data Legally

If you need to harvest data for your research, contact Terry Decker (terry.decker@emory.edu) in order to explore alternative options; for example, Nexis does allow you to pay for a separate licensing agreement that is specifically intended for harvesting content.

One additional point of clarification: While our licenses do allow for manual searches, most of the vendors impose record limits; if you exceed it they will turn off access. It is recommended that when conducting manual searches, if you need large amounts of data or text, contact Susan Klopper (susan.klopper@emory.edu) in advance of running your searches so she can reach out to the vendor.

Emory Licensed Sources of Data and Text Analysis

Data Resources – Curated collections of datasets across multiple topics and support for using statistical software applications.

Dewey Data – Dewey's research platform provides access to third-party quantitative datasets focused on behavioral economics, corporate finance, marketing, real estate, public policy and more.

TDM Studio – ProQuest TDM Studio allows you to create and analyze text from a selection of ProQuest newspapers.

Google Scholar

Google Scholar Tips Sheet – Follow these steps to ensure that you authenticate to Emory licensed academic journals from Google Scholar when you are on and off campus for more efficient access.

Adding Emory University will enable "Find It@Emory" to display to the right of your GS search results; click on Find It@emory.edu to link directly to the article.
