

African American Book Publishers List

This list is organized alphabetically by first name of publisher as it appears on the title page of African American-authored books and pamphlets. The date in brackets indicates the date of publication of the first item known to have been produced by that publisher or the first item located by that publisher in the Stuart A. Rose Manuscript, Archives, and Rare Book Library at Emory University.

An effort has been made to enter all variants of publishers' titles as they appear on the title page. The list excludes sheet music and serial publications. Note: (Joyce) in citations refers to information derived from Donald F. Joyce, *Gatekeepers of Black Culture* (1983) and *Black Book Publishers in the United States* (1991).

All publishers are searchable in the Library's catalog, [discoverE](#).
