### How to Create and Edit PitchBook Alerts

Skip ahead to

<u>Overview</u>

**Creating Alerts** 

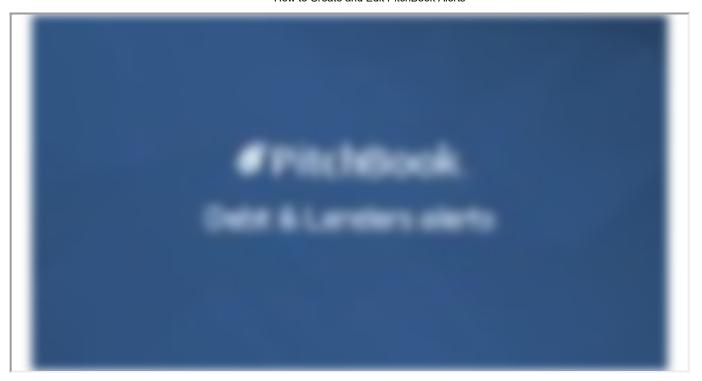

**Editing Alerts** 

#### **Overview**

Alerts from the PitchBook platform are a powerful way to stay informed when new data is added to the platform that's relevant to you. Alerts are based on Saved Searches you create. Not sure how to save a search? Check out our article on this topic <a href="https://help-pitchbook-com.proxy.library.emory.edu/s/article/How-to-save-a-search-and-manage-email-alerts">https://help-pitchbook-com.proxy.library.emory.edu/s/article/How-to-save-a-search-and-manage-email-alerts</a>).

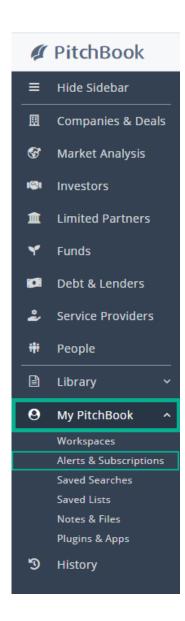

#### **Creating Alerts**

Once you've identified a list of entities you'd like to stay informed on, save the search using the floppy disk icon in the upper right-hand corner. Once you have named the search, you can select the types of alerts you'd like to receive and set the alert frequency. Watch the video below for a guided walk-through of the process.

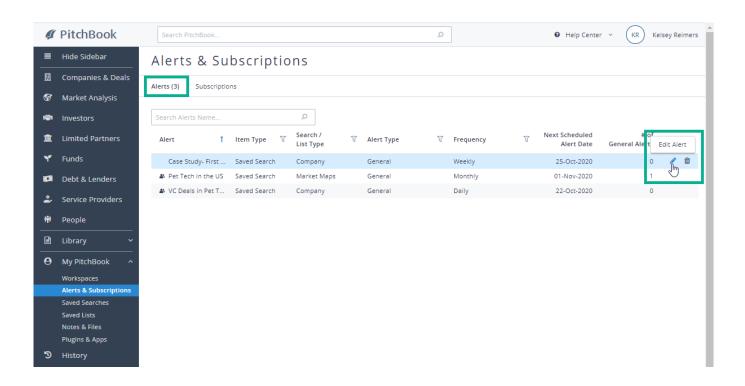

### **Editing Alerts**

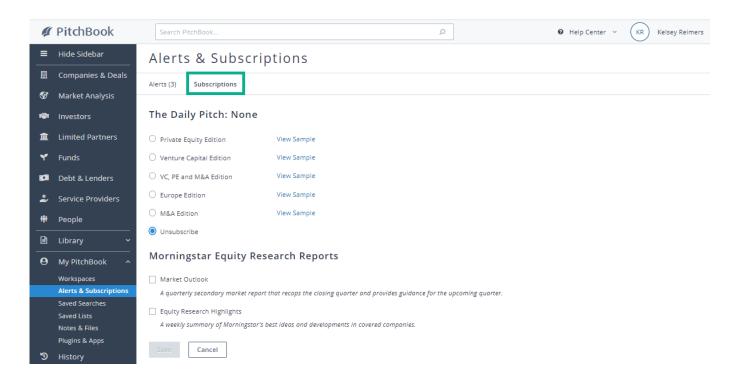

To change the frequency of alerts and the type of content you receive alerts for, navigate to the **My PitchBook** section of the left-side menu, indicated with a person icon. From the My PitchBook section, click on **Alerts & Subscriptions**.

From **the Alerts & Subscriptions** page, you can search our alerts and click the **pencil icon** next to each alert to edit it. Click the **garbage can icon** to remove all alerts related to the saved search (the saved search will not be deleted.)

While your here, check out the **Subscriptions** sub-tab to manage **The Daily Pitch** emails and subscribe for **Morningstar Equity Research Reports** (if Equity Research is included in your subscription.)
